SKILLS

Python	Pytorch
Tensorflow	Javascript
Reactjs	Nextjs
Nodejs	Postgresql
Mongodb	Git

EDUCATION

Vidya Academy of Science and Technology

Electronics and Communication Engineering   2018-2022

Conestoga College Waterloo

Information Technology Network Security   2023- Present

PROJECTS

Accident Detection

The website analyze input photos/video for accidents by passing them through a YOLO model and focus on enhancing safety of drivers.

Customer Segmentation

In the customer segmentation project, clustering algorithms were applied and delivered actionable insights for tailored marketing and enhanced customer experiences.

Food Delivery Website

Users can explore and order delicious foods from restaurants based on location.

PROFILE

Innovative and scientifically rigorous graduate with significant data science and full-stack developing experience to bring to the table. With a team-oriented attitude, I'm eager to contribute my abilities in advancing and contributing to the success of the company.

WORK EXPERIENCE

Junior Project Assistant (R&D)

Msigma Gokulam Ltd | Nov 2022 - Aug 2023

- Researching, Developing and Implementing new engineering project Ideas
- Collaborating with cross-functional teams including designers, product managers, and other teams to create high-quality products.
